

# ENVIRON

Safety Management Ltd

**COURSE TITLE:** Asbestos Awareness

**WHO SHOULD ATTEND:**

This course is aimed at employees and managers in industries where staff may come into contact with Asbestos Containing Materials (ACM's) as part of their day to day works.

**AIMS:**

The course aims to provide attendees with an understanding of the Control of Asbestos Regulations and enable them to identify potential ACMs so that they may control the risks to themselves and their staff on site.

**COURSE CONTENT:**

Delegates will receive a classroom based theory session covering;

- Legal requirements
- The history of Asbestos and its uses
- Discussion of materials which might contain asbestos
- Health implications from asbestos exposure
- Risk assessment and control measures

**CANDIDATE ASSESSMENT:**

Test paper and practical assessment

**QUALIFICATION:**

On successful completion of the practical session and test paper the delegate will receive an Environ Safety Management Certificate which is valid for 1 year.

**COURSE DURATION:** ½ Day  
**COST:** £295 + vat per course  
**NUMBER OF DELEGATES:** Min. 5. Max. 15
