## Safety Management Ltd

**COURSE TITLE:** Construction Skills Health & Safety Awareness

**WHO SHOULD ATTEND:**

This course is to help those who are due to commence work, or have begun to work in the industry to understand the potential hazards on site. It provides a practical summary of health, safety, welfare and environmental issues, identifying the delegate's responsibility for looking after themselves and others, outlines the employer's duties and explains what should be done if the employee thinks anyone's health and safety is being put at risk. The course is an ideal foundation for those wishing to obtain an industry accreditation card.

**AIMS:**

This classroom based course is to ensure that individual responsibilities are understood:

- Why they are carrying out their identified duties, and
- What is expected of them, and
- To ensure that they contribute to the safety of the workplace to ensure that at the end of the course delegates will be able to:
  - Understand the need to prevent accidents
  - Have an understanding of health and safety law.
  - Identify how their role fits into the control and management of the site
  - Understand the need for risk assessments and method statements.
  - Appreciate the need to perform safely and to stop and ask for advice if not sure.
  - Feel obliged to report unsafe acts to prevent an accident.

**COURSE CONTENT:**
